Dragoxat® 89 No. 109854 **An Attractive Light Emollient** **for Modern Skin Care Concepts**

BENEFITS

- Provides dry emollient properties
- Skin feel enhancer
- Imparts a soft, non-greasy feeling to the skin
- Leaves a silicone oil like feeling to the skin
- Shows an excellent spreadability
- Provides unique dry initial feel during rub-in
- Leaves minimal residue after-feel
- Particularly suitable for soft skin care products
- Shows water repellent properties
- Reduces greasiness/tackiness and lightens the feel of heavier emollients
- Reduces tackiness in deodorant and antiperspirant roll-ons and sticks
- Offers an excellent performance profile within the group of high spreading emollients

PRODUCT DESCRIPTION

- Ester made from the reaction of isononanoic acid and 2-ethylhexanol
- Low viscous dry emollient
- Colorless clear liquid, neutral odor
- High purity (98-100%)
- INCI name: Ethylhexyl Isononanoate
