Product Portfolio

Symrise manufactures around 35,000 products that are based on approximately 9,000 raw materials from more than 100 countries. Most of these are of natural origin, including vanilla, citrus fruits or flower and plant materials. The operating activities of the two segments extend across research and development, purchasing, production, and the sale of products and solutions. Natural ingredients, flavors, perfume oils and active ingredients are generally central functional components in Symrise customers' end products and are often a key factor in consumers' purchasing decisions. Along with the typical product characteristics such as fragrance and taste, value creation at Symrise lies in the development of

products with additional benefits – for example, by combining food ingredients and perfume oils with other innovative components.

The Taste, Nutrition & Health segment has sites in around 40 countries and sells almost 18,000 products in 147 countries. Taste, Nutrition & Health aims to make life better and healthier. As an augmented flavor house, the segment uses its consolidated know-how and scientific research to offer sustainable solutions based on natural ingredients to customers and partners in the areas of taste, nutrition and health. Symrise delivers responsibly manufactured ingredients treated with gentle proprietary

processes utilizing IP and differentiated technologies to create flavorful, nutritious and healthy solutions. With more than 100 sites around the world, the segment serves the markets of the food and beverage industry as well as pet food and pet care.

The Scent & Care segment has sites in around 30 countries and markets more than 17,000 products in 135 countries. Scent & Care is divided into three global divisions: Fragrance, Cosmetic Ingredients and Aroma Molecules. Their products are used in various applications.
