Encapsulation solutions
for dry beverages

*As passionate leader
in great taste,
we offer the broadest portfolio
of encapsulation solutions*

> EDITORIAL

In today's dynamically developing food & beverage market, one aspect remains unchanged: Consumers expect great tasting products. While a flavor represents only a small part of a food or beverage product recipe, it often determines if a product is repurchased.

Symrise's versatile portfolio of encapsulation solutions protects great taste all the way – from production to consumption – unleashing delicious taste exactly the moment the consumer wants it.

We are proud to look back to an unparalleled heritage of pioneering and preserving great taste: Not only have we continuously developed and invested in new delivery technologies, but also established unique taste tools, delivering against the consumer desire for freshness & authenticity.

Now we have condensed our offer for your every encapsulation need under one common umbrella name: **evocore®**
The heartland of encapsulation.

Please join us on a journey through our versatile portfolio, addressing in this booklet specifically the needs and wants of dry beverage customers and consumers. See how **evocore®** can preserve the magic of flavor and translate it into winning taste solutions for your product – no matter if it is for a delicious tea, an instant coffee drink or powdered citrus beverage.

evocore®
**Unleash great taste
in your products with Symrise
– your encapsulation partner.**

A handwritten signature in black ink, appearing to read 'Dirk Schrader', is written in a cursive style. The signature is positioned above the name 'Dirk Schrader' which is printed in a bold, sans-serif font.
