### Symrise successfully renews syndicated credit facility (RCF)

---

Symrise AG has successfully refinanced its existing revolving credit facility (RCF) and increased the volume to €750 million. The increase underlines the confidence of the financing partners in the company's strong credit quality and at the same time expands financial flexibility and security for further growth. The facility has a maturity of five years with two one-year extension options and an additional €250 million increase option if required. The conditions are attractive against the background of the investment-grade rating by S&P and Moody's.

"In a focused and constructive process, we have succeeded in concluding a balanced RCF agreement that reflects Symrise's strong credit profile and creates a solid foundation for continuing our growth trajectory", explains Olaf Klinger, CFO at Symrise. "In the coming years, we can continue to rely on a proven circle of partner banks. We would like to thank them expressly for their support."
